

**Wang, Jian; Cai, Huijing**

**On the analytic theory of quasi-finitely generated Kleinian groups.** (Chinese. English summary)

Zbl 0737.30027

Nat. Sci. J. Xiangtan Univ. 12, No. 1, 1-7 (1990).

This paper is the first one of a series of papers. In this paper, only some basic results of Kleinian groups are recalled. The authors announce that these basic results of finitely generated Kleinian groups will be generalized to a certain class of infinitely generated Kleinian groups in the following papers.
