

Kinnersley, Nancy G.; Langston, Michael A.

Obstruction set isolation for the gate matrix layout problem. (English) Zbl 0941.68590
Discrete Appl. Math. 54, No. 2-3, 169-213 (1994).

MSC:

68Q25 Analysis of algorithms and problem complexity
68R10 Graph theory (including graph drawing) in computer science

Cited in **1** Review
Cited in **21** Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
