

**Hoare, Tony (ed.); Broy, Manfred (ed.); Steinbrüggen, Ralf (ed.)**

**Engineering theories of software construction. Proceedings of the NATO ASI, Marktoberdorf, Germany, July 25 – August 6, 2000.** (English) [\[Zbl 0972.00060\]](#)

NATO Science Series III: Computer & Systems Sciences. 180. Amsterdam: IOS Press. Tokyo: Ohmsha. ix, 357 p. (2001).

The articles of this volume will be reviewed individually.

Indexed articles:

*Jackson, Michael*, Problem analysis and structure, 3-20 [\[Zbl 0989.68013\]](#)

*Hoare, C. A. R.; He, Jifeng*, Unifying theories for logic programming, 21-45 [\[Zbl 1005.68036\]](#)

*Peyton Jones, Simon*, Tackling the awkward squad: Monadic input/output, concurrency, exceptions, and foreign-language calls in Haskell, 47-96 [\[Zbl 0989.68021\]](#)

*MacQueen, David*, Adaptation in HOT languages comparing polymorphism, modules, and objects, 97-132 [\[Zbl 0989.68015\]](#)

*Turski, Władysław M.*, Programming for behaviour, 135-148 [\[Zbl 0989.68090\]](#)

*Broy, Manfred*, From states to histories relating state and history views onto systems, 149-186 [\[Zbl 0989.68091\]](#)

*Parrow, Joachim*, The  $\pi$ -calculus: An introduction, 187-222 [\[Zbl 0995.68066\]](#)

*Tofts, Chris*, Performance modelling using probabilistic process algebra, 223-257 [\[Zbl 0989.68102\]](#)

*Pnueli, Amir; Kesten, Yonit*, Taming the infinite: Verification of infinite-state reactive systems by finitary means, 261-299 [\[Zbl 0989.68092\]](#)

*Nelson, Greg*, Extended static checking, 301-308 [\[Zbl 0991.68011\]](#)

*Holzmann, Gerard J.*, Software model checking, 309-355 [\[Zbl 0989.68093\]](#)

**MSC:**

**00B25** Proceedings of conferences of miscellaneous specific interest

**68-06** Proceedings, conferences, collections, etc. pertaining to computer science

**Keywords:**

Marktoberdorf (Germany); Proceedings; Workshop; Engineering theories; Software construction
