

Jasiulewicz, Helena; Kordecki, Wojciech

Probability theory and mathematical statistics. Examples and problems. (Rachunek prawdopodobieństwa i statystyka matematyczna. Przykłady i zadania.) (Polish) [Zbl 1003.62002](#)

Wrocław: Oficyna Wydawnicza GiS. 127 p. (2001).

This book strictly corresponds to the second author's handbook reviewed above, see the preceding review, [Zbl 1003.62001](#), and is a collection of 276 problems in probability and statistics. Complete solutions to 48 problems are presented, and for the others hints and answers are given. An appendix contains basic statistical tables.

Reviewer: [Jaroslaw Bartoszewicz \(Wrocław\)](#)

MSC:

[62-01](#) Introductory exposition (textbooks, tutorial papers, etc.) pertaining to statistics

[60-01](#) Introductory exposition (textbooks, tutorial papers, etc.) pertaining to probability theory

Keywords:

[estimation](#); [testing hypotheses](#); [problems](#); [solutions](#)
