

**Hörmander, L.**

**Fourier integral operators. I.** (English) Zbl 0212.46601  
*Acta Math.* 127, 79-183 (1971).

For a scan of this review see the [web version](#).

**MSC:**

- 47-02 Research exposition (monographs, survey articles) pertaining to operator theory
- 47G10 Integral operators
- 35S30 Fourier integral operators applied to PDEs
- 35S05 Pseudodifferential operators as generalizations of partial differential operators
- 47G30 Pseudodifferential operators

Cited in **14** Reviews  
Cited in **639** Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
