

Heidenreich, R. D.

Electron microscope and diffraction study of metal crystal textures by means of thin sections. (English) Zbl 0035.14002

J. Appl. Phys. 20, 993-1010 (1949).

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
