

Sinswat, V.; Patel, R. V.; Fallside, F.

A method for computing invariant zeros and transmission zeros of invertible systems.

(English) [Zbl 0329.93024](#)

Int. J. Control 23, 183-196 (1976).

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
