

Martinez, J.

Archimedean lattices. (English) Zbl 0272.06013
Algebra Univers. 3, 247-260 (1973).

For a scan of this review see the [web version](#).

MSC:

06D05 Structure and representation theory of distributive lattices
06F20 Ordered abelian groups, Riesz groups, ordered linear spaces
06B23 Complete lattices, completions

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
