

Brusentsev, A. G.; Rofe-Beketov, F. S.

Self-adjointness of higher-order elliptic integrals. (English. Russian original) Zbl 0291.47024
Funct. Anal. Appl. 7, 319-321 (1974); translation from *Funkts. Anal. Prilozh.* 7, No. 4, 78-79 (1973).

For a scan of this review see the [web version](#).

MSC:

- 47F05** General theory of partial differential operators (should also be assigned at least one other classification number in Section 47-XX) Cited in 1 Document
- 47B25** Linear symmetric and selfadjoint operators (unbounded)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
