

**Brock, William A.; Scheinkman, José Alexandre**

**Global asymptotic stability of optimal control systems with applications to the theory of economic growth.** (English) Zbl 0348.90018

*J. Econ. Theory.* 12, 164-190 (1976).

For a scan of this review see the [web version](#).

**MSC:**

**91B60** Trade models

**37J99** Dynamical aspects of finite-dimensional Hamiltonian and Lagrangian systems

**34D20** Stability of solutions to ordinary differential equations

Cited in **56** Documents
