

**Peskin, Charles S.**

**Numerical analysis of blood flow in the heart.** (English) Zbl 0403.76100  
*J. Comput. Phys.* 25, 220-252 (1977).

For a scan of this review see the [web version](#).

**MSC:**

76Z05 Physiological flows

76D05 Navier-Stokes equations for incompressible viscous fluids

Cited in **6** Reviews  
Cited in **779** Documents

**Keywords:**

Numerical Analysis; Blood Flow; Heart; Navier-Stokes Equations; Moving Immersed Boundaries; Laplace-Solver

**Full Text:** [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
