

Soisalon-Soininen, Eljas

On the space optimizing effect of eliminating single productions from LR parsers. (English)

Zbl 0442.68085

Acta Inf. 14, 157-174 (1980).

For a scan of this review see the [web version](#).

MSC:

68N20 Theory of compilers and interpreters

Cited in 1 Document

Keywords:

context-free grammar; single production; syntactical analysis; LR parsers; space optimization
