

Magda, Constantine Gregory

Circular balanced repeated measurements designs. (English) Zbl 0457.62061
Commun. Stat., Theory Methods A9, 1901-1918 (1980).

For a scan of this review see the [web version](#).

MSC:

62K99 Design of statistical experiments
62K05 Optimal statistical designs

Cited in **3** Reviews
Cited in **28** Documents

Keywords:

circular balanced repeated measurements designs; strongly balanced uniform designs; residual effects; universal optimality; change-over designs

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
