

[Mas-Colell, A.](#)

**Remarks on the game-theoretic analysis of a simple distribution of surplus problem.** (English)

[Zbl 0476.90011](#)

[Int. J. Game Theory 9, 125-140 \(1980\).](#)

For a scan of this review see the [web version](#).

**MSC:**

- [91B50](#) General equilibrium theory
- [91A40](#) Other game-theoretic models
- [91A12](#) Cooperative games
- [91B38](#) Production theory, theory of the firm

Cited in **21** Documents

**Keywords:**

existence results; initial endowment dependant utility functions; distribution of surplus; core of economy; public goods; production model; continuum of agents; increasing returns to scale; decreasing marginal utility; construction of value allocations
