

Leivant, Daniel

Implicational complexity in intuitionistic arithmetic. (English) Zbl 0488.03032
J. Symb. Log. 46, 240-248 (1981).

For a scan of this review see the [web version](#).

MSC:

03F50 Metamathematics of constructive systems
03F30 First-order arithmetic and fragments

Cited in 1 Document

Keywords:

[intuitionism](#); [intuitionistic arithmetic](#); [implication](#); [truth-definition](#); [Prenex normal form](#); [implicational measure](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
