

Benveniste, L. M.; Scheinkman, José Alexandre

Duality theory for dynamic optimization models of economics: The continuous time case.

(English) [Zbl 0503.90023](#)

J. Econ. Theory 27, 1-19 (1982).

For a scan of this review see the [web version](#).

MSC:

[91B62](#) Economic growth models

[91B50](#) General equilibrium theory

Cited in **53** Documents

Keywords:

dynamic optimization; existence of absolutely continuous maximizing solution; dual path; optimal path; economic interpretations

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
