

Stan, I.**On a nonlinear complex interpolation result for n Banach spaces.** (English) Zbl 0638.46050
Lucr. Semin. Mat. Fiz. 1985, No. 2, 51-53 (1985).

Summary: Our result generalizes the complex interpolation method introduced in [*A. Favini*, Boll Un. Mat. Ital., IV. Ser. 4, 677-686 (1971; [Zbl 0225.46020](#))]. For $n = 2$ this result is given in [*J. Bergh*, Lect Notes Math. 1070, 45-47 (1984; [Zbl 0545.46053](#))].
