

Tam, Christopher K. W.; Hu, Fang Q.

The instability and acoustic wave modes of supersonic mixing layers inside a rectangular channel. (English) Zbl 0673.76078

J. Fluid Mech. 203, 51-76 (1989).

MSC:

76H05 Transonic flows

76Q05 Hydro- and aero-acoustics

Cited in **1** Review
Cited in **17** Documents

Keywords:

Kelvin-Helmholtz instability; thin unconfined two-dimensional; shear layer; two-dimensional instability waves; ramjet engine; combustion chamber

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
