Real interpolation with a parameter function of Banach triples. (English) Zbl 0686.46046
Semin. Oper. Liniari Anal. Armonică, Univ. Timișoara 1, 37 p. (1988).

The authors consider interpolation of function spaces using a functional parameter. In this fashion they extend results of Kalugina and *J. Gustavsson* [Math. Scand. 42, 289-305 (1978; Zbl 0389.46024)] and *G. Sparr*, Ann. Mat. Pura Appl., IV. Ser. 99, 247-316 (1974; Zbl 0282.46022)].
