

Khattree, Ravindra

Characterization of inverse-Gaussian and gamma distributions through their length-biased distributions. (English) [Zbl 0695.62014](#)

IEEE Trans. Reliab. 38, No. 5, 610-611 (1989).

MSC:

[62E10](#) Characterization and structure theory of statistical distributions

[62N05](#) Reliability and life testing

Cited in **8** Documents

Keywords:

weighted distribution; length-biased random variable; inverse-Gaussian; Gamma distribution; linear combination; chi-square random variable; Wald distribution
