

**Montagna, Franco**

**Interpretations of the first-order theory of diagonalizable algebras in Peano arithmetic.**

(English) [Zbl 0463.03015](#)

Stud. Log. 39, 347-354 (1980).

For a scan of this review see the [web version](#).

**MSC:**

**03C05** Equational classes, universal algebra in model theory

**08C10** Axiomatic model classes

**06E10** Chain conditions, complete algebras

**03C60** Model-theoretic algebra

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
