

Pérez Rojas, H.; Pérez Martínez, A.; Mosquera Cuesta, Herman J.
Collapsing neutron stars driven by critical magnetic fields and exploding Bose-Einstein condensates. (English) Zbl 1087.85001
Int. J. Mod. Phys. D 14, No. 11, 1855-1860 (2005).

MSC:

- 85A15 Galactic and stellar structure
- 85A30 Hydrodynamic and hydromagnetic problems in astronomy and astrophysics
- 83C75 Space-time singularities, cosmic censorship, etc.

Cited in **3** Documents

Keywords:

neutron stars; strong magnetic fields; Bose-Einstein condensation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
