

Wang, Y.; He, Y. L.; Tang, G. H.; Tao, W. Q.

Simulation of two-dimensional oscillating flow using the lattice Boltzmann method. (English)

Zbl 1107.82370

Int. J. Mod. Phys. C 17, No. 5, 615-630 (2006).

MSC:

82C40 Kinetic theory of gases in time-dependent statistical mechanics

80A20 Heat and mass transfer, heat flow (MSC2010)

76P05 Rarefied gas flows, Boltzmann equation in fluid mechanics

Cited in **2** Documents

Keywords:

lattice Boltzmann method; forced convection; oscillating flow; numerical simulation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
