

Fleischer, Isidore

Congruence extension from a semilattice to the freely generated distributive lattice. (English) [Zbl 0512.06007](#)
Czech. Math. J. 32(107), 623-626 (1982).

For a scan of this review see the [web version](#).

MSC:

[06A12](#) Semilattices
[06D10](#) Complete distributivity
[06B10](#) Lattice ideals, congruence relations

Cited in 1 Document

Keywords:

lower semilattice; completely join-distributive lattice; distributive sups; lattice congruence

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
