

Henni, A. A.; Lagraa, M.

The flux of noncommutative $U(1)$ instanton through the fuzzy spheres. (English)

Zbl 1113.81102

Int. J. Mod. Phys. A 21, No. 23-24, 4913-4929 (2006).

MSC:

81T16 Nonperturbative methods of renormalization applied to problems in quantum field theory Cited in 1 Document

81T75 Noncommutative geometry methods in quantum field theory

Keywords:

noncommutative geometry; instantons and monopoles; partial isometries

Full Text: [DOI](#) [arXiv](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
