Kronecker product identities from D-finite symmetric functions. (English) Zbl 1187.05081
Sémin. Lothar. Comb. 57, B57c, 7 p. (2006).

Summary: Using an algorithm for computing the symmetric function Kronecker product of D-finite symmetric functions we find some new Kronecker product identities. The identities give closed form formulas for trace-like values of the Kronecker product.

MSC:

05E05 Symmetric functions and generalizations

Keywords:

D-finite functions; Kronecker product; symmetric function identities
