Fixed point and common fixed point theorems on ordered cone metric spaces. (English)

Zbl 1197.54052

Appl. Math. Lett. 23, No. 3, 310-316 (2010).

Summary: Some fixed point and common fixed point theorems for self-maps on ordered cone metric spaces, where the cone is not necessarily normal, are proved.

MSC:

54H25 Fixed-point and coincidence theorems (topological aspects)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
