

Willson, James K.; Gao, Xiaofeng; Qu, Zhonghua; Zhu, Yi; Li, Yingshu; Wu, Weili
Efficient distributed algorithms for topology control problem with shortest path constraints.
(English) [Zbl 1184.68364](#)
Discrete Math. Algorithms Appl. 1, No. 4, 437-461 (2009).

MSC:

[68R10](#) Graph theory (including graph drawing) in computer science
[41A99](#) Approximations and expansions
[05C69](#) Vertex subsets with special properties (dominating sets, independent sets, cliques, etc.)

Cited in **6** Documents

Keywords:

[connected dominating set](#); [shortest path](#); [distributed algorithm](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
