

Guttag, J. V.; Horning, J. J.

A Larch shared language handbook. (English) [Zbl 0581.68008](#)
Sci. Comput. Program. 6, 135-157 (1986).

This handbook consists of a collection of traits written in the Larch Shared Language, and is intended as a companion to the "Report on the Larch Shared Language" [see the preceding review]. It should serve three distinct purposes: provide a set of components that can be directly incorporated into other specifications; provide a set of models upon which other specifications can be based; and help people to better understand the Larch Shared Language by providing a set of illustrative examples.
