**Recent developments and open problems in linear series.** (English) Zbl 1254.14001

Pragacz, Piotr (ed.), Contributions to algebraic geometry. Impanga lecture notes. Based on the Impanga conference on algebraic geometry, Banach Center, Będlewo, Poland, July 4–10, 2010. Zürich: European Mathematical Society (EMS) (ISBN 978-3-03719-114-9/hbk). EMS Series of Congress Reports, 93-140 (2012).

From the introduction: These notes contain problems, examples and theorems that were prepared for and grew out of the Oberwolfach Mini-Workshop “Linear series on algebraic varieties” (Oct. 3–9, 2010), thereby giving a useful collection of results which are either scattered through the literature or are considered to be folklore.

For the entire collection see [\[Zbl 1245.14003\]](#).

**MSC:**

- [14-02](#) Research exposition (monographs, survey articles) pertaining to algebraic geometry
- [14-06](#) Proceedings, conferences, collections, etc. pertaining to algebraic geometry
- [14C20](#) Divisors, linear systems, invertible sheaves
