Partly interpolation space in the multidimensional case. (English) [Zbl 1289.46036](#)
An. Univ. Vest Timiș., Ser. Mat.-Inform. 50, No. 2, 117-123 (2012).

Summary: We give a necessary and sufficient condition for an intermediate Banach space A with respect to the Banach $N + 1$ -tuple \vec{A} to be a partly interpolation space. We also establish some properties on partly interpolation spaces.

MSC:

46B70 Interpolation between normed linear spaces

Keywords:

interpolation spaces; partly interpolation spaces
