Interpolation of locally convex $n + 1$ -tuples. (English) [Zbl 1313.46075](#)

Bul. Ştiinţ. Univ. Politeh. Timiş., Ser. Mat.-Fiz. 58(72), No. 1, 71-82 (2013).

Summary: We extend some interpolation results from Banach $n + 1$ -tuples to more general locally convex $n + 1$ -tuples. We also investigate the relation between the interpolation spaces relative to a given $n + 1$ -tuples of locally convex spaces and the interpolation spaces relative to some of its subspaces.
