

Esperet, Louis; Ochem, Pascal

Islands in graphs on surfaces. (English) Zbl 1329.05105
SIAM J. Discrete Math. 30, No. 1, 206-219 (2016).

MSC:

05C15 Coloring of graphs and hypergraphs

05C10 Planar graphs; geometric and topological aspects of graph theory

Cited in 4 Documents

Keywords:

coloring; graphs on surfaces; monochromatic components

Full Text: [DOI](#) [arXiv](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
