

Chaudhuri, Arijit (ed.); Christofides, Tasos C. (ed.); Rao, C. R. (ed.)

Data gathering, analysis and protection of privacy through randomized response techniques: qualitative and quantitative human traits. (English) [\[Zbl 1349.62001\]](#)

Handbook of Statistics 34. Amsterdam: Elsevier/North Holland (ISBN 978-0-444-63570-9/hbk; 978-0-444-63571-6/ebook). xviii, 525 p. (2016).

The articles of this volume will be reviewed individually.

Indexed articles:

Rao, T. J.; Rao, C. R., Review of certain recent advances in randomized response techniques, 1-11 [[Zbl 1365.62046](#)]

Chaudhuri, A., How randomized response techniques need not be confined to simple random sampling but liberally applicable to general sampling schemes, 17-27 [[Zbl 1365.62027](#)]

Christofides, T. C., The classical randomized response techniques: reading Warner (1965) and Greenberg et al. (1969) 50 years later, 29-41 [[Zbl 1365.62028](#)]

Singh, S., On the estimation of correlation coefficient using scrambled responses, 43-90 [[Zbl 1365.62052](#)]

Sengupta, S., Admissible and optimal estimation in finite population sampling under randomized response models, 91-104 [[Zbl 1365.62050](#)]

Quatember, A., A mixture of true and randomized responses in the estimation of the number of people having a certain attribute, 105-117 [[Zbl 1365.62045](#)]

Barabesi, L.; Diana, G.; Perri, P. F., Estimation of complex population parameters under the randomized response theory, 119-131 [[Zbl 1366.62023](#)]

Abdelfatah, S.; Mazloum, R., An efficient randomized response model using two decks of cards under simple and stratified random sampling, 133-154 [[Zbl 1366.62022](#)]
