

Jones, Rafe; Levy, Alon**Eventually stable rational functions.** (English) Zbl 1391.37072

Int. J. Number Theory 13, No. 9, 2299-2318 (2017).

MSC:

- 37P05** Arithmetic and non-Archimedean dynamical systems involving polynomial and rational maps Cited in 7 Documents
- 37P15** Dynamical systems over global ground fields
- 11R32** Galois theory
- 12E05** Polynomials in general fields (irreducibility, etc.)
- 37P25** Dynamical systems over finite ground fields
- 11S82** Non-Archimedean dynamical systems

Keywords:arithmetic dynamical system; irreducibility of polynomials; S -integer point**Full Text:** [DOI](#) [arXiv](#)**References:**

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
