Basic problems in stability and design of switched systems. (English) Zbl 1384.93064
IEEE Control Sys. 19, No. 5, 59-70 (1999).

MSC:

- 93C30** Control/observation systems governed by functional relations other than differential equations (such as hybrid and switching systems)
- 93D15** Stabilization of systems by feedback
- 93B51** Design techniques (robust design, computer-aided design, etc.)
