On interpolation of locally convex couples with real methods. (English) Zbl 1399.46110

Bul. Ştiinţ. Univ. Politeh. Timiş., Ser. Mat.-Fiz. 61(75), No. 1, 39-44 (2016).

Summary: We consider a general form of Peetre's \mathcal{K} - and \mathcal{J} -methods of interpolation for locally convex couples.

MSC:

46M35 Abstract interpolation of topological vector spaces

Keywords:

interpolation methods; locally convex couple; interpolation operator; Hausdorff locally convex space
