

Towers, John D.

Convergence of the Godunov scheme for a scalar conservation law with time and space discontinuities. (English) Zbl 1406.35190

J. Hyperbolic Differ. Equ. 15, No. 2, 175-190 (2018).

MSC:

- [35L65](#) Hyperbolic conservation laws
- [65M06](#) Finite difference methods for initial value and initial-boundary value problems involving PDEs
- [65M08](#) Finite volume methods for initial value and initial-boundary value problems involving PDEs
- [65M12](#) Stability and convergence of numerical methods for initial value and initial-boundary value problems involving PDEs

Cited in 4 Documents

Keywords:

discontinuous flux; entropy solution; LWR traffic model; time-varying speed limit

Full Text: [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
