

Xu, Lixiang; Tang, Yuanyan; Luo, Bin; Cui, Lixin; Chen, Xiu; Xiao, Jin

A combined Weisfeiler-Lehman graph kernel for structured data. (English) Zbl 1398.05145
Int. J. Wavelets Multiresolut. Inf. Process. 16, No. 5, Article ID 1850039, 19 p. (2018).

MSC:

- 05C62 Graph representations (geometric and intersection representations, etc.)
- 30C40 Kernel functions in one complex variable and applications
- 68T10 Pattern recognition, speech recognition
- 68R10 Graph theory (including graph drawing) in computer science
- 68P05 Data structures

Keywords:

graph kernel; graph classification; Weisfeiler-Lehman algorithm; combined graph kernel

Software:

LIBSVM

Full Text: [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
