

Clason, Christian; Mazurenko, Stanislav; Valkonen, Tuomo

Acceleration and global convergence of a first-order primal-dual method for nonconvex problems. (English) [Zbl 1414.49037](#)

SIAM J. Optim. 29, No. 1, 933-963 (2019).

MSC:

[49M29](#) Numerical methods involving duality

[49J53](#) Set-valued and variational analysis

[49N45](#) Inverse problems in optimal control

Cited in **2** Documents

Keywords:

[acceleration](#); [convergence](#); [global](#); [primal-dual hybrid gradient method](#); [nonconvex problems](#)

Software:

[iPiano](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
