

**Edwards, J. P.; Kirchbach, M.**

**Massless Rarita-Schwinger field from a divergenceless antisymmetric tensor-spinor of pure spin-3/2.** (English) [Zbl 1412.17014](#)

*Int. J. Mod. Phys. A* 34, No. 11, Article ID 1950060, 22 p. (2019).

**MSC:**

- 17B81 Applications of Lie (super)algebras to physics, etc.
- 15A66 Clifford algebras, spinors
- 81R25 Spinor and twistor methods applied to problems in quantum theory
- 35Q41 Time-dependent Schrödinger equations and Dirac equations
- 81T13 Yang-Mills and other gauge theories in quantum field theory

**Keywords:**

applications of Lie groups to physics; Clifford algebra; spinors; Dirac equation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
