

Eksioglu, Ender M.; Tanc, A. Korhan

Denosing AMP for MRI reconstruction: BM3D-AMP-MRI. (English) Zbl 07097238
SIAM J. Imaging Sci. 11, No. 3, 2090-2109 (2018).

MSC:

- 47A52 Linear operators and ill-posed problems, regularization
- 49M30 Other numerical methods in calculus of variations (MSC2010)
- 65J22 Numerical solution to inverse problems in abstract spaces
- 94A08 Image processing (compression, reconstruction, etc.) in information and communication theory

Keywords:

image reconstruction; magnetic resonance; message passing; block matching; compressed sensing; denoising

Full Text: [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
