

Kelk, Steven; Linz, Simone

A tight kernel for computing the tree bisection and reconnection distance between two phylogenetic trees. (English) [Zbl 1430.68130](#)

SIAM J. Discrete Math. 33, No. 3, 1556-1574 (2019).

MSC:

68Q27 Parameterized complexity, tractability and kernelization
05C05 Trees
68W40 Analysis of algorithms
92D15 Problems related to evolution

Cited in **1** Review
Cited in **2** Documents

Keywords:

fixed-parameter tractability; tree bisection and reconnection; generator; kernelization; phylogenetic network; phylogenetic tree; hybridization number

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
