

**Grisaru, M. T.; Nishino, H.; Zanon, D.**

**Beta-functions for the heterotic Green-Schwarz sigma-model.** (English) Zbl 0938.81526

Gates, S. J. jun. (ed.) et al., Strings '88. Proceedings of a workshop, May 24-28, 1988 at University of Maryland, at College Park, Baltimore, MD, USA. Singapore etc.: World Scientific. 349-364 (1989).

For the entire collection see [\[Zbl 0715.53059\]](#).

**MSC:**

**81T30** String and superstring theories; other extended objects (e.g., branes) in quantum field theory Cited in 4 Documents

**81T15** Perturbative methods of renormalization applied to problems in quantum field theory

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
