

Wadati, Miki; Kato, Go

One-dimensional hard-core Bose gas. (English) Zbl 0995.82501

Chaos Solitons Fractals 14, No. 1, 23-28 (2002).

MSC:

82B10 Quantum equilibrium statistical mechanics (general)

81T40 Two-dimensional field theories, conformal field theories, etc. in quantum mechanics

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
