

Ju, Guo-Xing; Ren, Zhongzhou

The eigenspectrum and hidden supersymmetry of the Dirac oscillator in $2 + 1$ dimensions.

(English) [Zbl 1080.81620](#)

Int. J. Mod. Phys. A 18, No. 31, 5757-5765 (2003).

MSC:

81U15 Exactly and quasi-solvable systems arising in quantum theory

81Q05 Closed and approximate solutions to the Schrödinger, Dirac, Klein-Gordon and other equations of quantum mechanics

81Q60 Supersymmetry and quantum mechanics

Cited in **2** Documents

Keywords:

Dirac oscillator; Dirac equation; supersymmetry

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
