

Gao, Sijie; Lemos, José P. S.

Collapsing and static thin massive charged dust shells in a Reissner-Nordström black hole background in higher dimensions. (English) Zbl 1145.83334

Int. J. Mod. Phys. A 23, No. 19, 2943-2960 (2008).

MSC:

83C57 Black holes

83E15 Kaluza-Klein and other higher-dimensional theories

Cited in 10 Documents

Keywords:

thin shells; black hole; extra dimensions

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
