

Liu, G. R.; Nguyen-Thoi, T.; Nguyen-Xuan, H.; Dai, K. Y.; Lam, K. Y.

Letter to the editor: On the essence and the evaluation of the shape functions for the smoothed finite element method (SFEM). (English) [Zbl 1181.74137](#)

Int. J. Numer. Methods Eng. 77, No. 13, 1863-1869 (2009).

MSC:

74S05 Finite element methods applied to problems in solid mechanics

Cited in **31** Documents

Keywords:

numerical methods; meshfree methods; finite element method (FEM); smoothed finite element method (SFEM); strain smoothing operator; linear point interpolation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
