

Meliga, Philippe; Sipp, Denis; Chomaz, Jean-Marc

Open-loop control of compressible afterbody flows using adjoint methods. (English)

Zbl 1190.76089

Phys. Fluids 22, No. 5, Paper No. 054109, 18 p. (2010).

Editorial remark: No review copy delivered.

MSC:

76-XX Fluid mechanics

Cited in 11 Documents

Keywords:

compressible flow; convection; drag; eigenvalues and eigenfunctions; external flows; flow control; flow instability; fluctuations; Navier-Stokes equations; transonic flow; wakes

Full Text: DOI

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
