

Negreiros, Rodrigo Picanço; Malheiro, Manuel

Charged relativistic stars and the anisotropic formalism. (English) Zbl 1269.85005

Int. J. Mod. Phys. D 16, No. 2-3, 303-311 (2007).

MSC:

85A15 Galactic and stellar structure

83C55 Macroscopic interaction of the gravitational field with matter (hydrodynamics, etc.)

Keywords:

charged stars; star interior; anisotropic stars

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
